

## HD Range

Horizontal discharge  
transfer pumps

Versatile and reliable.  
The first choice for a variety of water  
transfer duties in agriculture, mining  
and general industry.

**Franklin Electric**

**Pumping System Solutions**

## HD Range

The Mono HD range of horizontal pumps has been developed over the years for a wide variety of high pressure water transfer duties. Simplicity of design makes these pumps easy to service. Being of modular construction, there is a high degree of interchangeability of components.

### Features

- Steady, non-pulsating flow
- Positive displacement pumping principle
- Abrasion-resistant pumping element comprising a resilient rubber stator and a hard chrome-plated rotor
- Inherently self-priming
- Versatility - Mono HD pumps can be driven by electric motors, diesel or petrol engines, and tractor PTOs.

### Capacities

- Flows up to 60m<sup>3</sup>/hr
- Heads up to 450m

### Applications

- Irrigation
- Stock watering
- Domestic water supply
- Slurry pump gland servicing
