

ROBOR SHOULDER-ENDED FORGED STEEL COUPLINGS

ROBOR shoulder-ended forged steel couplings conform to SANS 815-1.

Nominal Size mm	Pipe Minimum Wall Thickness mm	Outside Diameter of Pipe Max mm	Maximum Hydraulic Working Pressure of Coupling in Ring-ended Joint Bar	Maximum Hydraulic Working Pressure of Coupling in Stub-ended Joint Bar	Bolt & Nut Sizes	Maximum Deflection from Centre Line per Coupling	Maximum Deflection from Centre Line per 6m Pipe mm

Coupling Housing	Special profile to RYC460 derived from SANS 1431 450WA
Bolts & Nuts	ISO 898-1, Grade 8.8, electroplated or hot-dipped galvanised to ISO 1461
Gaskets	SANS 974-1, SBR or NBR
Coating	Painted or hot-dipped galvanised to ISO 1461
